

Principles Of Palliative Care Workshop

Course Description

This interactive 2 day workshop aims to provide core knowledge for Registered Nurses working in a community role or Nursing Home setting. It aims to explore the issues and challenges relating to the practical application of person centred palliative care towards the end of life.

Contents include:

- What is meant by palliative care
- Pain and Symptom Management
- Palliative Care Emergencies
- Communication skills
- Advance Care Planning

Learning Outcome

By the end of the workshop you will be able to:-

- Describe the principles of person centred end of life care.
- Identify how to alleviate the common symptoms associated with the approach to end of life.
- Respond appropriately to palliative care emergencies.
- Facilitate conversations regarding advance care planning.
